Sir,

Pursuant
to law and the regulations of the department,
I made examination at the close of business
yesterday, of the books, accounts & monies, on
hand in the office of the Asst. Treasurer of
the U. S. at Philadelphia, and found a balance
of \$7,603,066.19, which corresponded with
his statement of account for that day.
In the foregoing, the following items were counted
as cash:

Found in Seal Packages & Marked
"for Reserve Fund"

\$1,690,500.00

5 per cent. bond

202,150.00

Interest paid on notes

\$69.21

Coupons paid &c. as cash, no
balance on hand.

has been received.

The receipted bills which
you have to transmit as vouchers

U. S. Assay Office

New York Sept. 2, 1864.

My Dear Patterson,

Mr. Cisco's official responsibility as Treasurer of the Assay Office ceased on the 30th July. The change was made too suddenly to make it possible to have an ^{actual} settlement of the Melt & Refiner's A/c., and the question now occurs - how shall Mr. Cisco's a/c. be settled?

One of the plans proposed is a constructive settlement, - going through all the forms of an annual settlement, - though not an ounce of bullion changes hands. To this Mr. Kent objects, being unwilling to be a party to anything other than bona fide transactions. I have taken the ground that

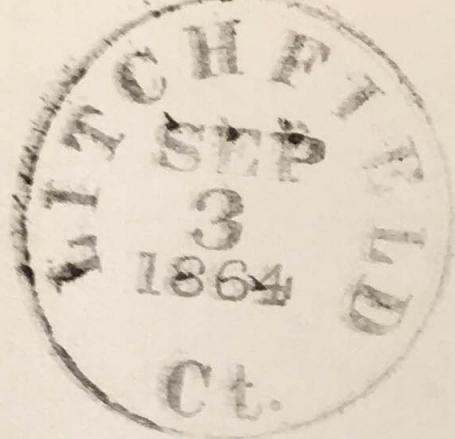

no settlement by the M. & R.
is necessary; but that the
Treasurer may close his
acc. by debiting the M.
& R. for the balance in his
hands, just as is done at
the end of every quarter.
I do not see why Mr. Cisco
may not just as well hand
over to his successor this out-
standing acc. with the M. & R.,
which is vouched by Mr. Katz's
signature to the Abstract, as to
hand over the bullion itself.

But I do not propose to
go into an argument, though
I would like very much to
compare views with you.
My sole object in writing
is to ascertain what has
been the practice at the
Mint under similar circumstances.
Both Edelman & myself have

the impression that a change
of Treasurers did not neces-
sitate a settlement (actual) of
the Acs. of the M. & R. & Coin.
What is the fact? Please
answer by telegraph as
soon after receiving this
as possible. I have
to present my view to
Mr. Cico in writing to-morrow
& would like to know what
the Mint precedents have
been.

Very truly yours,
Geo. F. Demming.

September 12th 1864.

To whom it may concern.

I, James Pollock
Director of the United States Mint, do here-
by certify, that on the 10th day of June A.D. 1864,
I, as Director of the U. S. Mint, and for the use
of that Institution, entered into a contract with
Holmes, Booth & Hayden of Waterbury, Conn. for
the manufacturing and delivery to the U. S.
Mint, for the use of the United States, cent and
two-cent blanks or planchets, in bronze metal
(composed of copper, tin & zinc) in such quantity and
at such times, as the same might be required &
ordered by the Director of the U. S. Mint. That in
pursuance of said contract, the aforesaid Holmes
Booth & Hayden, made & delivered to the Treasurer
of the Mint of the United States, ^{for the use of the United States} by my order, the
amount of blanks or planchets in bronze metal,
of one & two-cent pieces, and at the times and at
the value, ~~for the use of the Mint~~ as set forth in
the following statement, that the same have been
actually delivered, to the Treasurer of the U. S. Mint,
who was duly authorized by law to receive the
same, & were made & delivered under the
contract executed prior to the 1st day of July

Sir:

I have the honor to request that the usual estimates for the fiscal year ending June 30, 1866 may be prepared at your office, and transmitted to this, as early as convenient, for the purpose of being laid by the Secretary of the Treasury before Congress at the ensuing session. I would invite your particular attention to the 14th section of the act of August 26, 1842, to the section of the act of 17th of June 1844, to the joint resolution of 7th January, 1846, relating to estimates to be laid before Congress, and 8th section of the act of 2d March, 1855.

In the references to the acts authorizing the expenditures of the sums estimated for, you are respectfully requested to refer to Little & Brown's edition of the Laws of the United States.

Sir.

I have now lying in the C. House Stores at New York - Eight Porcelain Refining Pots, precisely the same in every respect, as those sold to the Mint on the 13th April /64. - which I beg to offer to the U.S. Mint (if unsold at the time an answer is received).

I will sell them at the same price formerly paid say \$43. each, in gold, (duty free); this will pay me a little over the cost price, but I am desirous of closing the Invoice - and would state that as I do not intend to order any more of these Pots at any future time, it is the last and only opportunity that I shall have to offer them to the U.S. Mint.

If Encouraged by your answer I will wait personally on you in reference to the above, which I hope may meet your approval.

In answer to letter
of H. F. Dunning
Supt. Assay Office
Concerning stamping
of Gold bars.

Apr. 20th 1864.

Assessors Office
Sept. 20. 1864

Hon. James Pollock
Director Pr. Pr.
Sir,

In making reply to the inquiries of the Superintendent at New York, it may be well, to show the present state of the matter, to send him the enclosed copy of my last letter to the Commissioner, and then to add the following replies.

To his first question - Yes; to the second, No.

In regard to the third, I have no doubt that Mr Dunning takes the common-sense view, and one which ^{agrees with} ~~is supported by~~ the subject-matter and spirit of the law, namely; that the proper agent is the Institution, and not the particular functionary who merely ascertains the finances, and has no intercourse with depositors. In a former letter to the Commissioner, I remarked upon this point, that practically our Treasurer would have to levy and collect the tax, while in matter of form I would render the monthly

returns. I only objected to taking so many oaths, having already sworn to fulfil my duties faithfully; and being thus obliged to swear to things that I have no personal cognizance of, as for instance the weighing of the deposits. My affidavit must be understood as a verification of the return, as compared with my registers.

I suppose the business will settle down to a routine consistent with the various departments of official duty. My last letter has not yet been answered, and in the meantime, our practice is, for Mr. Lungen (Treasurer's Clerk) to make the deduction, and put it on a blank memorandum, ^{copies of which are entered,} ~~from~~ which the paying clerk acts upon, and keeps as his voucher; and at the end of the month he is to bring these papers, with the money, to the Assayer. The latter officer, or the Treasurer for him, will then exchange the specie for legal currency at market rate, and pay over the proceeds; whether to the collector of the district, or the Sub-treasurer, is not yet definitively settled. The foregoing routine was chiefly planned by Mr. Patterson, under the supervision of our Treasurer.

As the fourth inquiry; we have levied no tax on deposits made prior to August 29; further than that we cannot say.

In fine; we exempt from the tax (under the
best construction we can put upon regulations)
all bars bearing a revenue stamp, and all
articles of jewelry, & plate; and coins.

Very respectfully

Prof I C Booth

Dear Sir

Yours of the 12th & the
Director's letter of 13th enclosing the Certificate, came
safe to hand. We feel deep obligations both to yourself
individually & to the Director not only for the last
favor but for your very valuable assistance rendered and
through the existence of the Ferriman contract & for your
patronage bestowed in the shape of the contract for
blanks for the Mint. When we remember how much
of your time we monopolized while we were engaged on
the Ferriman job & your entirely disinterested &
unrewarded assistance to so large an extent we feel
that something beyond our bare thanks was your
rightful due & if we knew how to approach you in a
way acceptable to you perhaps we would in some shape
give ourselves the pleasure of discharging the obligations.
We do not know what is customary in such cases but
should be glad in some shape to prove our appreciation
of your large labors in our behalf. We suppose too that
something is due the Director for the trouble on his time in
the matter of the official certificates, to this too we should

like to respond & wish you please suggest what is customary
We do not suppose because you are public officers that your
outside labors should go unrequited—

The little lot of G Lblow
you sent us you may charge us if agreeable to you as so
much Nickel & copper as they contain at the present price
of those articles & deduct the amt from our bills you are
paying for the blanks— We do not find here any purchaser
for it at a fair price & should we get rid of our own
present stock of Nickel & other material we now have
on hand for G Lblow & you will hold the former lot you
write about we will order material from you as our wants
may be but our G L trade is so very small we know not where
we should be in want— Yours of the 15th coming
up of lot blanks #7 is at hand & we enclose the bill—

Your quotation for Copper agree with our own information
on the subject & your price & remarks are quite satisfactory

We had a regimental Muster in our
place last week for four days & their camp located very
near us & drew so heavily on our help that we accomplished
very little work during the week & the shipment which
we should have made will unavoidably be detained some
two or three days later than usual—

Respectfully Yours

Dear Sir.

I am informed there has been some complaint made at the Mint about the Aqua Fortis not being in Tub Carboys. If you wish it sent in Tub Carboys, I will do so, but should prefer, if you could take it in the Box carboys, so as not to mix it up with the Nitric Acid.

The load to morrow morning will be in Box Carboys, which please receive & inform me if you wish it in future in Tub or Box Carboys. Tub Carboys add considerably to the expense.

Lot N^o 9 has been assayed & found
correct. Fin 3.2. Zinc 9.9. of
the price of Copper on 28th Inst. is
11.4. Lot was 17,000. Minnesota is
quoted @ 47-49, which for some reason
is a manifest error. The average
price is 44½, therefore for Lot 17,000
43½ etc. Your account will therefore

The price of Copper quoted yesterday
was 50 @ 52½, but as we made a dif-
ference in our favor in a former lot,
the Director proposes 51½ as the stan-
dard. Hereafter we think that an
average between the highest & lowest
will be the proper one.

Dear Sirs,

Your favor of 21st Inst. was duly recd. In reply we have to say that you received an order from us long since for N^o 70 Crucibles, & no attention was paid to that order. We chiefly employ N^o 70 and a few of 10, 16 + 20. As we have but a moderate stock of N^o 10, & would like to try your manufacture, you may send us a cask, containing some 50 of N^o 10 & the balance in N^o 70's to fill the cask. We are now using 70's made in this city, & of superior quality, for which we have paid 8 cts. pr. N^o. When you are disposed to make N^o 70's you may hear further from us.

Dear Sirs,

By your favor of 15th Inst. you seem still to look for orders for Crucibles from the Mint. As stated at our last interview, we are not disposed to give 10 cts. pr. lb. The have just paid a bill for Crucibles @ 8 cts. & have given orders for more at the same rate.

The high prices have already produced the usual effect of competition, & we are now using a crucible made in Phil^a, for which we paid 8 cts. pr. lb. Its quality is unexceptionable.

Respectfully yours

Yours of
Yesterday is at hand, &
we can fill your order
for No 10's in 14 days.

On regard to the 70's
we will say, that so much
of our Time has been
employed in removing to
a new Factory, that we
have not been able to get
out any higher No. than
40's; - but we are progressing
as fast as possible, & hope
in the course of 2 months
to get out all the Nos wanted.

Dear Sirs,

The weight of No 12 Cent Blanks we have to assume as correct. The price of Copper quoted yesterday was $47 @ 47\frac{1}{2}$. We therefore take $72\frac{1}{4}$ cts. as the price of the lot. The assay was tin 3.3 & zinc 1.9 pr. ct., about near enough.

CONTRACTORS RETURNS,

The following Regulations for the release of Contractors with the United States from the increased duties imposed by the Act of June 30th, 1864, have just been issued by the Commissioner of Internal Revenue:

"Sec. 97, of the Act of June 30, 1864, provides that when the United States is the purchaser of articles on which a duty is imposed, or the duty increased by the Act, under a contract made prior to the passage of the Act, the certificate of the proper officer of the Department by which the contract was made shewing, according to Regulations to be prescribed by the Secretary of the Treasury, the articles so purchased and liable to such subsequent duty shall be taken and received in discharge of such subsequent duties on articles so contracted to be delivered, and actually delivered according to such contract. The following regulations are therefore prescribed: Where any contractor desires to avail himself of this provision, it will be his duty to procure and present to the officers of Internal Revenue the certificates prescribed. The contractor must procure the certificate of the officer to whom such articles are delivered, setting forth that he has actually received such articles during the month specified, with the quantity and description of the same, and that the articles were delivered under a contract duly executed prior to the 1st of July, 1864. The certificate should also give the date of the contract and the name of the officer by whom the contract was executed on the part of the U. S. To this certificate should be appended the certificate of the head of the Department in behalf of which said contract was made, or his assistant that the officer making such contract was duly authorized to receive the same on behalf of the U. S. These certificates will be presented to the assessor of the district in which such contractor has been assessed, who will certify thereon the amount of the duties so subsequently imposed on such articles over and above the rate existing prior to July 1, 1864. Such certificates should be executed in duplicate, and as the duties on said articles must be regularly assessed in each month at the rates prescribed in the Act of June 30, the certificates must be taken for each month separately. The Collector will receive the certificate as a payment of the amount stated in the assessor's certificate, and upon the receipt of the certificate and the balance due will enter the whole amount of the tax as collected, and credit himself in his quarterly account under the head "amount allowed on certificates of articles delivered to the United States under section 97," and forward the original certificates to the office of Internal Revenue, with his account as vouchers—retaining the duplicates in his own possession.

Dear Sir

We beg to acknowledge receipt of your letter of the 14th inst, wherein you state that our deposit was given to one of your most experienced hands, of which we have no doubt.

You furthermore state that "a mistake was impossible" but the very fact that the first returns were fifty seven ^{\$41.00} dollars and afterwards raised to seventy four ^{\$31.00} dollars is proof enough that there was a mistake.

All we have to say is that we know there has been a very great mistake made, because as we before stated, we purchased the gold in small quantities and melted it, and tested the same after melting and with our great experience feel confident to judge between 4 and 10 carats.

Our deposit should have produced at least One hundred or sixty dollars gold coin and we are prepared to make oath to that effect if necessary. We sincerely hope you will have justice done to us in this case

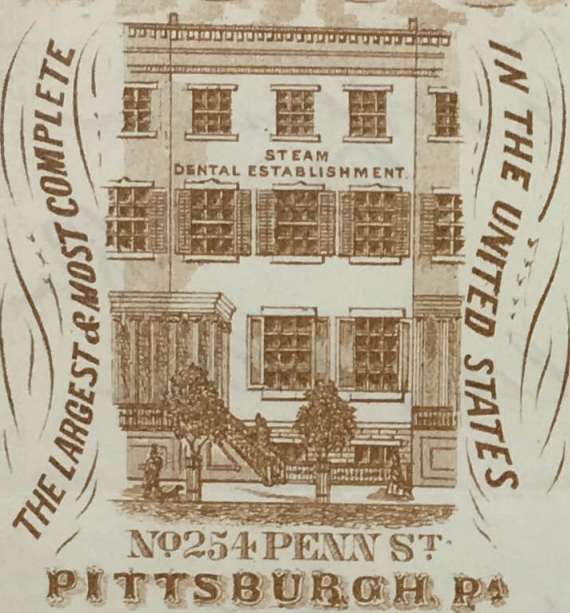

Most Respectfully

Mr. Stewart the Assistant Treasurer at this City suggested that we might be able to obtain what we require at the Mint.

We are now paying 15 per Cent premium on what we use, and think it all wrong that these coins are at such a premium, at any rate if a premium is to be paid, the Government ought to have the benefit of it.

Dr. H. B. Lindenmann

26 S. M. Philada.

Dear Sir,

In reply to your
favor of the 11th ult. in relation to the
Disposition of the Suez, I would res-
pectfully suggest ^{either} the three following arrange-
ments, as their Director may seem most ex-
pedient.

1st, The Mint may assign their Suez to me,
to be sold on Commission, with directions that
the net proceeds be invested in Bills of Exchange
drawn by the "Bank of England" which, drawn
in favor of the Treasurer of the Mint, can
be sold for gold in Philada, or probably, more
favorably, to the Secretary of the Treasury of
the U.S., as he may want funds in London
for the payment of salaries &c.; or the money
can be deposited with Messrs. Baring, Bros. & Co.
the partners of the U.S. in London, or, with Messrs.
Brown, Shipley & Co. who will thereupon give
me a draft on their Agents in Philada pay-
able to the Treasurer of the Mint, in Gold.
The Mint could provide for the contingency
of my death, by assigning the Suez then
in the Bill of Lading, to J. H. Fairman, 24
Abingth St. Becont St. or, in his absence, to Messrs.
Baring, Bros. & Co.; in the latter event, they
would attend to the Sale.
This is the arrangement, under which, between

1850 & 1855 I sold for the Mint, Sweep to the
amt. of about \$300,000 and I believe was emi-
nently satisfactory, and I am certain would
yield the Mint the largest returns.

2nd. By another arrangement, I would agree
to give the Mint, the Mint value of the
Gold and Silver present in the Sweep, as indi-
cated by their Assays, less Seven cents & 1/2
and pay for the same in American Gold
Coin, at the Mint, before the Sweep was
shipped; it being understood, that I was
not to make a greater purchase, at any
one time than Six Thousand Dollars.

3rd. The last arrangement I would suggest is
that they should consign the Sweep to
Messrs. Baring, Bros & Co. with directions
to deliver the same to me, on payment
of the Mint value of the Gold & Silver
present in the Sweep as indicated by the
Mint Assay, less Six & one half cents & 1/2.
By this last arrangement, I would afford
to pay a higher price as I should have
Freight, Insurance & Interest which would
be at the cost of the Mint.

By this last arrangement, I would purchase
any amt. of Sweep however large.

From my great experience in the sale of Sweep
I believe no one can dispose of it more
judiciously than myself.
I am well known to all the Smartest
of Europe, and, as evidence of their confi-

in me, I will mention that the last lot
of Suez I bought of the Mint was landed
in Liverpool.

The Paris Smelters, who bought part of
the same, instead of coming over to Liverpool
to draw their own samples, permitted me
to the owner, to draw samples for them, &
when they found they were the purchasers,
sent me the money, before I shipped a
barrel to them.

Should you conclude to ship the Suez
I can effect Insurance here at the "Royal
Exchange Assurance" and Institution 150 years
old, whose shares sell at £300 although
the par value is only £100.

In consequence of the war, insurances
at present "1 1/2 %" but this is compensated by
the greater cheapness of freight.

I shall be most happy to hear from you
at Colorado.

Your account of the Mines is most interesting
and the results most remarkable.
For fear, when this letter reaches Philadelphia,
you may have left for Colorado, I have
enclosed it to Mr. Dubois, with the
that he forward it to you.

I am, Respectfully,
Yours Wm. H. Lot,
for H. Fairman.

P.S. London, Sept. 15th 1864

Since the above was written I have deemed
it expedient to cancel the 2nd. of the above

suggestions, for the following reasons.

Money is now worth here nine per cent at the Bank of England and will probably be higher. Should I send my own money to the U.S. I must sell the stock in which it is invested & pay the brokerage returned, as net proceeds of sales of Sweep, it must be reinvested, with payment of Brokerage & Government

Stamp Duties; the aggregate of ^{all} which would abate too much from any profits I might make. Should you conclude to ship the Sweep, it may be consigned to me at Liverpool or London, writing to me in duplicate by successive mails.

Sir,

I have this day forwarded to you by Adams Exp. twelve Revenue stamps on account of those ordered by your Dept. In reply to your request for information as to where & to whom stamps should be sent, I would respectfully suggest that New York, Boston, Cincinnati & Chicago be selected, & that stamps be sent to the Supt of the Assay office, (Geo F Sumner Esq) N. York City, T. P. Chandler, Asst. Treas U S Boston, & such prominent gov^t officers connected with the Treasury Dept. in Cincinnati & Chicago as may be known to you, with notice to the public that all persons licensed as Assayers, can receive

the Revenue Stamps on application
to the depository nearest the appli-
cant I would also suggest that a
stamp be sent at once to the Branch
Mint Denver Col Ter, for the use
of that Institution, We will have
ready in a few days more of the
stamps ordered, so that their comple-
tion you shall be duly advised,

Report of the Commission appointed to
test the Suitableness of Aluminum Bronze
for coinage & other purposes -

After the Academy adjourned in January
last, the Secretary of the Treasury requested
the appointment of a Commission, to report
on the qualities of alloys of Aluminum &
Copper particularly with reference to their
fitness for coins of low denominations.
In accordance with a provision of the
Constitution of the Academy, the President
nominated the following members to take
charge of the subject, and report there-
on at the August meeting Prof.
Henry, Prof. Barnard, Dr. Gibbs, and
Dr. Lorcey. A meeting of the Commission
was held at Washington in April last,
and a plan of operations agreed on.
A bar of alloy, consisting of 9 parts
copper and one of Aluminum, was
prepared by Mr Saxton and sent by
permission of the Secy of the Treasury

to the Director of the mint, with a test of
experiments to be made on the same.
The Commission provided other bars of
Aluminum-Bronze, containing various
proportions of Aluminum, with a view
to determine the strength, specific gravity,
power of resisting corrosive materials &c
but at this stage of their proceeding they
received a late number of Dingle's
Polytechnical Journal, containing a
valuable paper by Morreau on the
alloys of Aluminum & Copper, so com-
plete that all the questions submitted to
the Commission, except those relating to
the fitness of ^{those} alloys for coinage, are
fully answered. It only remained for them
to submit to the Academy the report of
the Assayer of the Mint, who superinten-
ded the experiments made on the Bronze
according to the instructions received
from the Commission. This report is hereby
offered - New-Haven Aug 4th 1864.

Hon James Folwell &
Director U States Mint }

Dear Sir

The U States assessor for our district has returned from certified statement of manifests delivered the Mint in the month of October, having found a discrepancy in amount between your statement of manifests received & our monthly return to him as having been sent —

The discrepancy arose from the fact, that you certified to the whole amount recd within the month which of course was right on your part, while our return to the assessor as the amount to be taxed for the same month included only the several shipments the recd & acceptance of which the Mint had acknowledged.

We charge the several shipments on our books, not at the time of shipment, but ~~but~~ when we get your notice that they are recd & accepted, hence the last item in your statement for October, amounting to 10,225⁰⁰ & \$7,413,12 dated, in your statement Oct 31, stands on our books dated, in Nov when we recd notice of its acceptance & this item will go into our return to the assessor for taxation in the month of Nov & leaves just that difference between your statement for October & our return to the assessor for the same month.

We made a special journey to our assessor to explain the difference & to arrange it if possible without giving you any farther trouble but he took the ground that as both our return & your statement had to go to Washington for examination they must agree & in this it is manifest that he was right.

To obviate the difficulty & at his suggestion, we return your statement & beg you to send us another, omitting the item of \$7,413.12 dated Oct 31 & let that item be included in your statement for November which will supersede all objection from the assessor & will leave our report for Nov to harmonize with your statement for same month & also straighten the discrepancy for October—

To save all unnecessary trisph on your time we have enclosed copies of the statement, leaving as we supposed nothing for you to do but to sign them if you see it right so to do—

As we date all these charges to the Mint, at the time we receive notice of their acceptance, & date our bills to the Mint at same time, & make our returns to the assessor from same date everything in the future will harmonize if you will please certify to such amounts as are covered by bills dated in same month—

This will in some cases as in October leave a shipment actually received at the Mint to lie over & go into the next month's statement but will keep the whole thing straight & at this moment we see no other way unless we should change them at time of shipment which would be before we can know that they are accepted.

Regretting the necessity of troubling you on your time
We remain

Most Respectfully Yours

For an answer to Mr. Hamell. I answer

First, in regard to the inquiry in the letter. The "increased value" in our tables in the last Annual Report, of foreign coins, as compared with the value "five years ago," is upon the silver coins only, and is due to the fact, that at that time the Mint price of silver was 121 cents per ounce of standard fineness, and now it is $122\frac{1}{2}$. As to gold coins, some are now reported a shade higher, others a little lower, than they were in the table of 1857-8; the decimals have been extended, and the present statement is the more accurate one. But the fact is, the valuation of a foreign coin can never be mathematically exact and fixed, because we go by the actual average weight and fineness, and not by the legal or professed standards. They deal with us by the same rule, in reporting upon our coins.

Next, as to the figures in the "Measures of Value." If the object is to be precise, the vulgar fraction must be resorted to, in cases where the decimals are endless or long drawn out. Therefore it may be stated,

1. Fine gold is \$20. $67\frac{71}{387}$ per ounce troy.
Standard gold, 18. $60\frac{20}{43}$ " "

2. Silver, being purchased for coinage at one rate, and coined at another (making a slight seigniorage) may be stated in two ways:

rejecting the whole dollar as anomalous, and taking the half dollar and lesser pieces, at 384 grains, 900 fine, to 100 cents, then the ounce of fine silver is rated at $138\frac{8}{9}$ cents. This is the coining rate. But the more proper rate, as a guide for the owners or sellers of bullion, is that by which the Mint buys; which makes the ounce fine, $136\frac{1}{6}$ cents. In other terms, we buy at $122\frac{1}{2}$ cents, and coin at 125 cents, to the ounce of standard fineness.

The old copper cent weighed 7 dwts. (168 grs.)

The copper-nickel cent (88 C. + 12 N.) weighed 3 dwts. (72 grs.)

The bronze cent (95 copper, + 3 tin + 2 zinc), weighs 2 dwts (48 grs.)

Measures of Value.

The Standards of gold and silver is 900 parts of pure metal and 100 of alloy, in 1000 parts of coin.

Pure Gold 23.22 grains = \$1.00 - Hence the value of an ounce is \$20.67.2 -

Pure Silver 357.113 = \$1.00 - Hence the value of an ounce is \$1.34-4 -

Standard Gold = \$18.60.5 per ounce.

Standard Silver = \$1.22-5 "

Eagle - (gold) = 258 Troy grains

Dollar " = 25.8 " "

Dollar (silver) = 412.5 " "

Half dollar = 192 - " "

Cent (copper) = 168 - " "

Dear Sir

Your favor of 23rd inst is received & for which please accept my thanks. As your report for the current year will probably be in print before the Comptroller reaches the MS of that portion of my book. (Haswell's Engineers & Mechanic's Pocket Book, Revised & Enlarged) I shall gladly avail myself of it, in the mean time you will very much oblige me by looking over the enclosed & correcting when necessary & returning it me.

There is a point in my last letter to you in which I failed to express my object with clearness. it is this. I have the MS of the value of foreign coins made up 5 years ago. but by your last Report I find the value of ^{all} ~~a number~~ of them that you include in your schedules I & J. pp. 207. &c. of an increased value. & therefore

This increase is universal. I can correct
my table by adding the percentage if I
knew it. but if it is not an uniform increase.
I must throw out all not included in your
schedules.

I pray you excuse the ^{liberty} ~~trouble~~.
I presume to state with you. but the
matter is one of great interest to me &
of some to the public.

of Lot No 15. Cent Blanks.

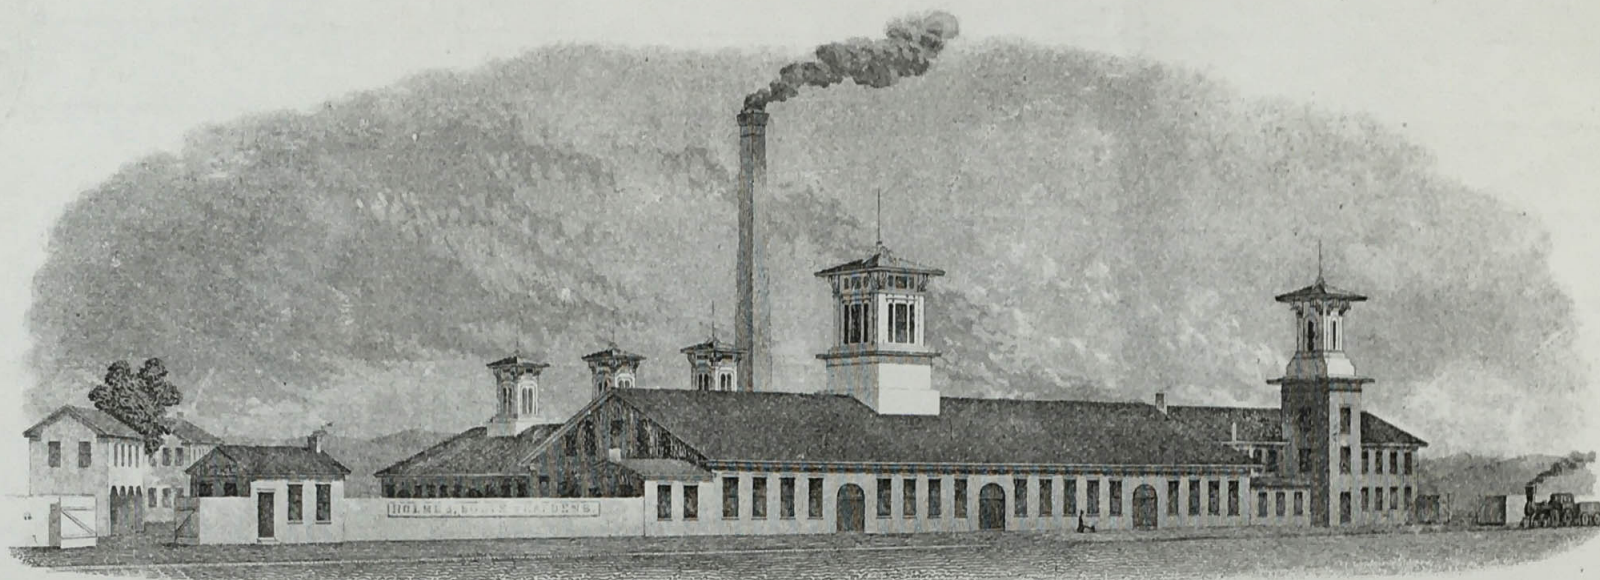

As complaints ~~like~~ other things, never
come single. so I am obliged to make
complaint of other things in relation to
the Blanks — 1. An excessive amount of
Burr appears, rendering it difficult to
work the blanks in our machinery. I
suppose it is due to want of sharpness in
the punches. — 2. The diameters of the
1-ct. blanks vary, sometimes to the extent
of the $\frac{3}{2}$ of an inch, which you know
seriously interferes with milling, &c. —
3. The weights of single pieces often vary
too much, some much too light, but
more of them much too heavy. In some
cases we have found an excess of four
(4) grains, which is the extreme limit

allowed by law.

I suppose it only necessary to draw
your attention to the above facts to
have them remedied.

Dear Sirs

The price of Copper quoted is $49\frac{1}{2}$ cts.
hence our blanks will be $74\frac{1}{2}$ cts. pr. lb.
The assay gives 3.2 tin & 2. zinc. The
weight proves correct.

The bill will therefore be:

9750 lbs. blanks @ $74\frac{1}{2}$ = \$ 7264.49

See memo.

net. $\frac{75.55}{\$ 7340.04}$

May I draw your attention to the greasy
condition of the blanks lately rec^d, where-
by our dies are badly gummed up.

They should be better soap-washed or
cleaned with soda. I trust that it will
only be necessary to mention the fact,
to insure its obviation.

Respectfully yours

Prof I C Booth

Dear Sir

The writer has been absent for the past four weeks which has left our correspondence in other hands — Our Mr Griggs says he has acknowledged all notes up to #13 inclusive in the name of our firm which is right as he has such Authority — Our weekly shipments hereafter will be diminishing and thus in compliance with your order — The last shipment was the usual amt having that amt in hand & ready to send —

In diminishing $\frac{1}{3}$ we supposed you desired the diminution to apply to both the one & two cent pieces & unless we get different orders shall make the shipments $\frac{1}{3}$ less of each kind — It will be right to send the pennies to our N York House & to deduct the amt from any of our bills — It is singular what hoarding of all the pennies you are now coming at the point — The writer has spent the last four weeks in Baltimore & Washington Military Departments in searching both places & all their vicinities for soldiers votes & was much of the time in street cars & all kinds of public conveyances. Still he saw scarcely a penny in circulation & a penny inconspicuous every where with every body for the want of them — Do you suppose it to be a fact that most of them are hoarded just as distributed? Respectfully Yours

Robert Booth & Haydon
per R. Hobbes

Will you please ask the Director to send Certificate of amt rec'd in October same as for months preceding —
